## PREFATORY NOTE

There has been evident in recent years an increasing demand for statistics presented on the basis of areas smaller than that of the State as a whole or of the Divisions of the State. The *Abstract of Statistics of Local Government Areas* has been designed to meet this demand and this issue is the third of an annual series.

The *Abstract* provides a range of information for each Local Government Area in Western Australia. Although some of the material has been specially compiled, the greater part of it has been abstracted from tables already appearing in other printed and mimeographed publications of this Office. Census data have been taken from publications prepared and issued by the Commonwealth Statistician. The number of dwellings and total population in each Area at the Census of 30th June, 1961 are shown in Items 2 and 3. The detailed information for Items 10 to 52 is not available from the 1961 Census at the time of going to press, but will appear in later issues.

The *Abstract* does not give a complete account of development in any single Local Government Area since each item selected for inclusion is such that it has a wide general application and thus represents an activity or characteristic occurring in all, or many, Local Government Areas. For this reason some items, though they may be important to Western Australia as a whole or to a particular part of the State, have not been included. Again, some information is not available or is not readily obtainable for Local Government Areas. Furthermore, data cannot be given for a particular Area in cases where publication would be a breach of the provisions of the Statistics Acts, which require that the contents of any individual statistical return shall be treated as confidential. In these instances items have been marked *Not available for publication*.

While the principal aim of the *Abstract* is to provide statistics of individual Local Government Areas as in Table 1, it has been thought desirable to include additional information on a broader geographic basis. This is the purpose of Table 2, where particulars are given for each of the eleven Statistical Divisions as these constitute significant areas for the publication of data in a convenient and readily appreciable summary form. In previous issues the names of the several Local Government Areas were arranged in a continuous alphabetical sequence, but it is apparent that there are advantages in presentation according to geographic groupings. In this issue a rearrangement has therefore been made, the names being placed alphabetically within the separate Statistical Divisions in the order shown on page 28. To facilitate reference to Table 1 an index list of Local Government Areas is provided on page 27. The Statistical Divisions and their component Local Government Areas are shown on the map appearing at the back of the *Abstract*.

Perth, Western Australia.  
5th December, 1962.

Deputy Commonwealth Statistician  
and Government Statistician.

## PREPATORY NOTE

There has been a great deal of discussion in the United States and in other countries of the possibility of a world conference on the subject of disarmament. The purpose of this note is to set forth the views of the United States on this subject.

The United States is in favor of a world conference on disarmament. It is in favor of a conference which would be held in a neutral country, and which would be attended by representatives of all the great powers. The United States is in favor of a conference which would be held in a neutral country, and which would be attended by representatives of all the great powers. The United States is in favor of a conference which would be held in a neutral country, and which would be attended by representatives of all the great powers.

## EXPLANATORY NOTES AND DEFINITIONS

- Item 2 Dwellings include unoccupied dwellings but exclude dwellings occupied solely by full-blood aboriginals. For census purposes, a "dwelling" is any habitation occupied by a household group living together as a domestic unit, whether comprising the whole or only part of a building. The term has, therefore, a very wide reference and includes, in addition to houses and flats, a great variety of "dwellings" ranging from a single-roomed shack to a multi-roomed hotel or institution.
- Items 3-36 *Full-blood aboriginals are excluded.*
- Items 4, 5 Figures shown do not necessarily represent the numbers of births or deaths actually occurring in a particular Local Government Area, births being attributed to the usual place of residence of the mother and deaths to the usual place of residence of the deceased. Figures are compiled according to date of registration and not date of occurrence.
- Item 6 Persons are enumerated at the place where they spent the night of the Census, and the population so recorded is credited to that place whether or not it is the usual place of residence.
- Item 18 Excludes widowed and divorced persons and persons married but permanently separated.
- Items 20, 21 In the Census tables relating to birthplace the Republic of Ireland has been included with the United Kingdom.
- Item 22 For census purposes, industry may be defined as any single branch of productive activity, trade or service. It is concerned with the activities of persons, firms or businesses *considered as a group* producing the same commodity, performing the same process or providing the same service. All persons engaged in any such branch of economic activity are classified industrially as belonging to that particular branch irrespective of their personal occupation within the industry.
- Persons engaged in industry, even though not actually working at the time of the Census, were asked to state the branch of industry in which they were normally engaged. For this reason, figures may appear against an industry not carried on in Western Australia or in the particular Local Government Area under which they are shown. Generally, such figures represent persons temporarily absent from their usual place of residence.
- Item 23 Includes Fishing, Hunting and Trapping ; Agriculture, Grazing, Dairying, Pig Farming, Poultry Farming and Bee Keeping; and Forestry.
- Item 26 Comprises construction and repair of buildings and construction and maintenance works such as those associated with roads, railways, bridges, harbour and river works, aerodromes, electric power, water conservation, irrigation and sewerage.
- Item 27 Includes road, rail and air transport, shipping and stevedoring, and post, telegraph and telephone services (including construction and maintenance of telegraph and telephone lines).
- Item 28 Includes banks, insurance offices, friendly and benefit societies, house and estate agencies, building societies and trustee companies.
- Item 29 Comprises wholesale and retail trade, wool, skin and produce dealing and stock and station agencies.
- Item 30 Particulars included for *Public authority (n.e.i.)* are residual figures comprising persons in the administrative sphere of general government and local government *who have not been classified elsewhere*. They do not, therefore, represent the total numbers of persons engaged in or attached to all fields of government service, Commonwealth, State or Local. For example, many employees of the Public Works Department or of Local Government Authorities have been assigned, in accordance with evidence contained in their Census schedules, to Item 26, *Building and construction*.
- Particulars included in *Professional* relate to such activities as the practice of medicine, law and architecture and represent not only qualified practitioners but also persons employed by them as, for example, receptionists, law clerks and draftsmen. Other activities included are Religion and Social Welfare ; Health, Hospitals ; and Education.
- Item 32 Comprises mainly Electricity, Gas, Water and Sanitary Services (production, supply and maintenance). Includes also persons whose industry was inadequately described or not stated.
- Item 33 The *Work Force* comprises persons of all ages who are (i) employers, (ii) self-employed (*i.e.* working on own account but not employing others), (iii) employees on wage or salary, or (iv) helpers not receiving wage or salary. It includes persons usually engaged in work but not actually working at the time of the Census on account of sickness, accident or industrial dispute, inability to secure employment or for any other reason.
- Items 37-52 See note to Item 2 for definition of *Dwelling*. *Occupied Private Dwellings* comprise Private Houses ; Sheds, Huts, etc. ; Shares of Private Houses ; Flats ; and Rooms, Apartments, etc.
- Item 40 A *share of a private house* is a portion of a shared private house which is occupied separately and for which portion a separate Householder's Schedule was furnished at the Census.
- Item 41 A *flat* is part of a house or other building which can be completely closed off and which includes both cooking and bathing facilities.
- Item 42 *Other private dwellings* include dwellings such as apartments, rooms, etc., which are parts of buildings but are not self-contained units.
- Item 44 *Occupied private houses* include houses, sheds, huts, etc., and shared private houses for which only one Householder's Schedule was received.
- Item 48 Includes houses occupied by caretakers and houses where the nature of occupancy was not stated.
- Item 50 Excludes particulars of houses occupied by persons who stated that they were tenants paying rent to a Government Authority.
- Item 52 Excludes particulars of flats occupied by persons who stated that they were tenants paying rent to a Government Authority.

- Item 53 In Western Australia, there is no single authority responsible for the licensing of motor vehicles. The Traffic Branch of the Police Department licenses vehicles in the Metropolitan Traffic Area, which comprises the whole of the Metropolitan Statistical Division (see *List of Statistical Divisions* on page 28) and that part of the Swan Division consisting of the Cockburn, Gosnells, Kwinana and Rockingham Road Districts in their entirety and parts of the Armadale-Kelmscott, Mundaring and Swan-Guildford Road Districts. Outside this Area each Municipal Council or Road Board is responsible for the licensing of motor vehicles in its own district.
- The Traffic Act provides for the registration of motor vehicles throughout the State, but those owned by the Commonwealth Government are not licensed under this Act and are excluded from the figures appearing in this Abstract. At the 30th June, 1961 there were in Western Australia 1,138 Commonwealth-owned vehicles (excluding those of the defence services) comprising 128 motor cars, 1,002 utilities, vans and trucks, 6 buses and 2 motor cycles.
- Item 55 Comprises utilities, vans, trucks and buses.
- Item 58 The figures shown relate to the retail trading activities of establishments, including hotels, garages and service stations, with retail sales of £500 or more during 1956-57, which normally sell goods by retail to the general public from shops, rooms, kiosks and yards. Establishments such as licensed clubs, canteens, laundries, dry cleaners and motion picture theatres are not included.
- Item 59 See note to Item 58.
- Item 61 Comprises Agriculture, Grazing, Dairying, Pig and Poultry Farming. Details for Municipalities outside the Metropolitan Statistical Division are combined with those for the surrounding or adjacent Road District (except in the case of the Bunbury Municipality, for which separate figures are shown). Thus, particulars for the Municipalities of Albany, Narrogin, Northam and York are included with those for the Road Districts of the same name, those for Carnarvon Municipality with the Gascoyne-Minilya Road District, for Geraldton Municipality with the Geraldton-Greenough Road District and for the Municipalities of Kalgoorlie and Boulder with the Kalgoorlie Road District.
- Item 62 A rural holding is defined as a piece of land of one acre or more in extent used for the production of agricultural products or for the raising of livestock and the production of livestock products. Holdings on which poultry are kept commercially or on which hatcheries are operated are also included, even though less than one acre in area.
- Item 63 Comprises persons of all ages residing permanently on rural holdings at the 31st March, 1961, including those temporarily absent but excluding guests and visitors.
- Item 66 The figures relate to males working on holdings at the 31st March, 1961 and include owners, lessees, tenants and share-farmers as well as employees on wage or salary and helpers not receiving wage or salary.
- Item 67 Excludes areas of pasture cut for meadow hay but includes areas under orchards and vineyards shown separately in Items 81 and 85.
- Item 69 *Other cleared land* comprises land cleared during the season, land in fallow and cleared land used for grazing or resting during the season.
- Item 70 Includes uncleared land used for grazing.
- Item 71 In some instances the *Total Area of Rural Holdings* exceeds the area of the Road District as shown in Item 1. This is due to the fact that in cases where a holding extends across the boundaries of adjacent Road Districts the total area of the holding is attributed to the District in which the homestead is situated.
- Item 72 As at 31st March, 1961. Comprises tractors of wheel and crawler types.
- Items 79, 80 Comprises oats, wheat, meadow and other hay. "Other hay" includes hay cut from barley, rye, lucerne, sudan grass, field peas and vetches.
- Item 81 Includes areas of bananas, passion fruit, strawberries and other berry fruit.
- Item 84 Comprises production of apricots, cherries, nectarines, peaches, plums and prunes.
- Item 86 Numbers relate to livestock on rural holdings at the 31st March, 1961.
- Items 91, 93 Figures relate to sheep and lambs shorn during the year ended 31st March, 1961.
- Item 92 Comprises shorn wool, including crutchings, from sheep and lambs but excludes "dead" wool pulled from skins. The figures relate to the year ended 31st March, 1961.
- Item 94 Estimated total production for the year ended 31st March, 1961. Includes milk used in the production of cheese and condensery products and the estimated whole milk equivalent of cream consumed as sweet cream and used for butter making.
- Item 95 For statistical purposes a factory is defined as any establishment which is engaged in the processes of manufacturing, assembling, treating or repairing and in which four or more persons are employed during any period of the year or power other than manual is used.
- Item 96 Figures relate to the average number of persons employed *over the whole year* and not *over the period worked*. This distinction is particularly important where seasonal industries, such as meat or fish preserving, whaling or fruit packing, are involved. For instance, a factory which operates for six months of the year only and employs, say, 20 persons throughout that period has an average employment of 20 *over the period worked* but an average of only 10 *over the whole year*.
- The figures shown include working proprietors, but exclude all persons engaged in obtaining raw materials (e.g. fallers and haulers employed by sawmills) and all persons engaged in selling and distribution.
- Item 99 Excludes amounts drawn by working proprietors.
- Item 100 *Value of output* is the selling value *at the factory* (i.e. the value at the point of sale *less* all selling and distribution costs) of all goods made or processed during the year and includes the amount received for other work done, such as repair work, assembling and making-up for customers. Any bounty or subsidy received on finished products is included.
- Item 101 *Net production* is the value added in the course of manufacture. It is derived from *value of output* (see note to Item 100) by deducting the cost of goods consumed in the process of production. The costs deducted are those of materials used, fuel, power and light, lubricating oil and water, repairs to plant and buildings, tools replaced, and containers and packings. *Net production* represents the sum available for payment of wages, rent, depreciation, other sundry expenses and for interest and profit.

- Items 102, 103 The values shown for *land and buildings* and *plant and machinery* are the depreciated book values at the 30th June, 1961. They include the estimated value of rented premises and machinery.
- Item 104 The figures relate to the activities of building contractors who undertake the construction of new buildings; the building operations of Commonwealth, State, semi-government and local government authorities; and work performed by "owner-builders." *Houses* exclude temporary dwellings and also dwellings attached to other new buildings as, for example, dwellings attached to shops.
- In general, the activities of "owner-builders" are recorded only in cases where they are subject to building control by a Local Government Authority. Thus some building operations not subject to such control are excluded as, for instance, houses erected on farms. While it is possible that such omissions may have some significance in a particular Local Government Area, it is considered that they do not materially affect the totals for Statistical Divisions.
- tem 107 Figures include particulars of roads under the control of the Main Roads Department throughout the State. At the 30th June, 1961, the Department had assumed control of 3,471 miles of "main" roads and 7,538 miles of "important secondary" roads. In addition, it had provided 22,099 miles of "developmental" roads, for the maintenance of which individual Local Government Authorities are responsible.
- Items 112, 117 For Municipalities the financial year ended on the 31st October and for Road Boards, on the 30th June.
- Item 117 Figures represent net indebtedness. Sinking fund balances, which aggregated £71,025 at the 30th June, 1960, have been deducted.

## NOTE ON LOCAL GOVERNMENT AREAS

In Table I and in the *Explanatory Notes and Definitions* and the *Footnotes to the Tables*, the district designations and names used are in the main those which were current at the dates or during the periods to which the statistics relate. Changes which have occurred since the Census of the 30th June, 1954 and which have been taken into account in this publication are :—

- On the 21st January, 1955, the name of the Fremantle Road District was changed to Cockburn, on the 10th June, 1955, Kent was changed to Nyabing-Pingrup and on the 28th March, 1958, Upper Chapman was changed to Chapman Valley.
- As from the 1st March, 1956, the Nedlands and South Perth Road Districts were reconstituted as Municipalities.
- The amalgamation was effected from the 1st July, 1960, of the Guildford Municipality and the Swan Road District to form the Swan-Guildford Road District.
- As from the 15th April, 1961, the Wagin Municipality became part of the Wagin Road District.

Changes which occurred up to the 31st December, 1961 and which have not been taken into account are :—

- On the 1st July, 1961 the Local Government Act of 1960 came into operation. The Act provided that Municipalities which already had city status remained "Cities," but other former Municipalities became known as "Towns," and Road Districts were renamed "Shires." Concurrently with the commencement of the Act, the names of a number of districts were altered. These changes are listed below.
